Marcos Bricches

Product & Design Engineer · São Paulo, Brazil · +55 11 94784-9221 · marcos.bricches@gmail.com
marcosbricches.pages.dev · linkedin.com/in/marcosbricches · github.com/marcchws · behance.net/marcosbricches

I design products and direct AI agents to build them, taking a client's problem to working software in the production stack, and I measure what the agents deliver.

Four products with case study, live demo and code: marcosbricches.pages.dev

Experience

Devio · Product Designer (mid-level) · Jul 2025 - Present · São Paulo, Brazil (remote)

- About 20 products built as production-stack front-ends with E2E tests and Docker
- Sales handoffs, SRS and call transcripts become domain docs, ADRs and agent tickets
- My own process with automated checks at every step, applied to every product
- UI checks: Playwright, axe, Lighthouse, pixel diff against the approved version
- Clients: Viva Maracanã, Buzzing PRTech, DASCo Tecnologia, PC&P, Classe A Locadora, Monster Films, Callistra

Devio · Product Designer (junior) · Oct 2024 - Jul 2025: working prototypes built with Claude, and from 2025 with Claude Code, to validate the product before development.

Devio · UX Designer · Feb 2023 - Oct 2024: UX/UI for client products.

Mestres da Web · UX Designer · Nov 2021 - Feb 2023: first UX/UI role, coming from graphic design; standout award at the Mestres Developers Conference 2022.
